

# You have the **JOICE.**

The first barrier-free Walk In shower,  
in which you can also take a bath!

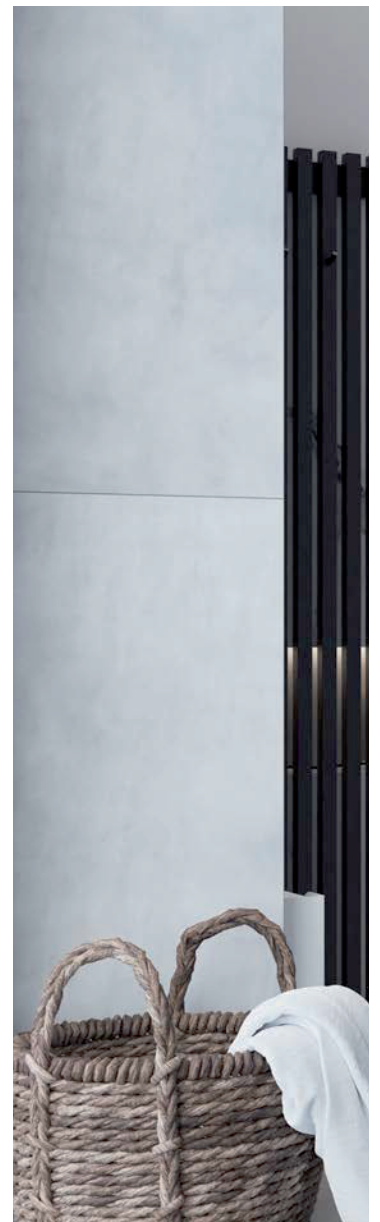

**JOICE Walk In⊕**

# A shower for every occasion.

---

Thanks to a completely redesigned 2 in 1 concept, we now present the first trendy Walk In solution with the bathing plus.

The barrier-free Walk In shower looks impressive, with its generous, door-free glass front. Coloured accents, fading from bottom to top, perfectly complement the scene. The JOICE Walk In blends superbly to your bathroom style, with plenty of space for a relaxing shower experience. But that's not all- we don't say for nothing: **"You have the JOICE."**

After a long day, you can think of nothing better than a soothing bubble bath? No problem! Because the plus with this modern Walk In shower: In an instant, it can be turned into a fully-fledged bath. This is how forward-thinking, flexible bathroom planning works.

“

## „The name JOICE

JOICE combines “Joy” with “Choice”. Because JOICE users can enjoy showering and bathing every day!”

Gerhard Aigner, Managing Director

JOICE Walk In<sup>+</sup>

# You have the JOICE.

You have the Joice. The new JOICE Walk In<sup>+</sup> is a real highlight in the bathroom. And trendy: simply enjoy the generous shower area, with no door or step-in.

Your unique bathing plus: In a few easy steps, the stylish Walk In becomes a fully-fledged bath!

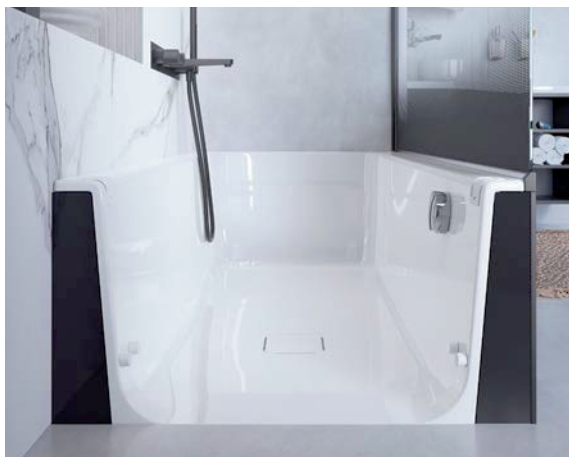

# When showering becomes a pleasure **JOICE.**

You want to shower without limits? In the JOICE, there is extra space for a shower experience that invigorates all your senses and gives you a feeling of freedom. The Walk In+ has all the room you need to move freely and to leave life's daily stresses behind – the ultimate place to relax and refresh yourself!

Its well-designed wide glass front fits into your bathroom with its choice of subtle colour accents. The floorlevel, door-free access offers safety and comfort and adds a touch of luxury to your bathroom.

**Trendy Walk In:** Barrier-free, open access.

**Very handy:** Elegant storage box for the panel (optional).

**XXL shower experience:** Generous shower area with a wide splash guard and plenty of space for total showering pleasure.

**Comfortable and safe:** Simply walk into the shower, flush to the floor.

„You can turn around however you want – **the JOICE has a generous space to take a shower**“.

# When a shower becomes a bathtub – **JOICE.**

You generally prefer a shower, but every now and again you would like to treat yourself to a bath? Perfect. Because in an instant, the door panel is fitted and locked in place and the JOICE Walk In+ shower becomes a fully-fledged bathtub. Despite the short length of the tub, there is enough space for a proper bath as the straight panel allows for maximum use of the base surface. And with a tub width of 85cm, the JOICE offers plenty of sideways movement.

The continuous panel seal and a safety locking mechanism ensure that the water stays where it should: in the bathtub. A special mechanism prevents the drain from closing if the panel is not inserted correctly. So, you can relax and enjoy your bath.

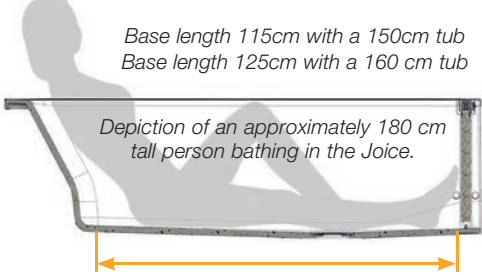

Lever to the left = Panel is open.  
Lever to the right = Panel is closed.

Plenty of room to bath due to the straight panel design.

Base length 115cm with a 150cm tub  
Base length 125cm with a 160 cm tub

Depiction of an approximately 180 cm tall person bathing in the Joice.

With its straight design, the JOICE offers plenty of room for a proper bath.

„A bathtub in an instant:  
**Insert. Lock. Enjoy.**“

# Perfectly renovated: **You have the JOICE.**

You want to renovate your bathroom? With the JOICE, even the most challenging bathroom refurbishments can be realised. If it's not possible to fit the JOICE drain into the floor, you may simply install it on an elegant pedestal. The room seems more dynamic with the split level, and you have a stylish division of the shower and wash area.

”

In our new bathroom we have an elegant Walk In – **and with the JOICE, I can still always take a bath whenever I want.”**

# Would you do without a bathtub, **even if it didn't take up any extra space?**

---

A modern, Walk In solution is what most bathroom users wish for.  
Often a bathtub is excluded for space reasons  
**And with that you lose a little bit of quality of life and flexibility.**

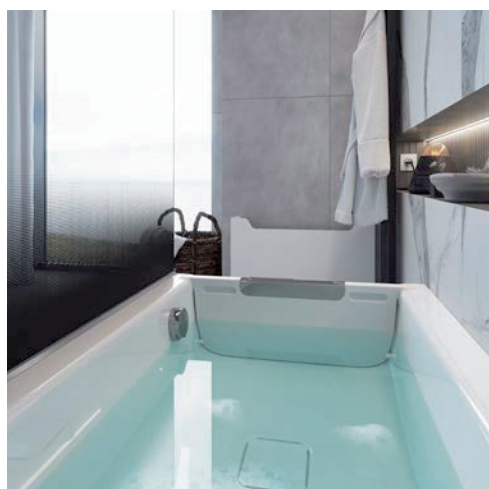

**That's because a bathtub has completely different advantages to a shower:**

- + Relaxation: A warm soak in a bathtub can be very relaxing and stress-relieving. It helps to loosen muscles and to create a calming atmosphere.
- + Time for yourself: Bathing allows you to take time for yourself, to feel pampered and relaxed. Skincare: A bath can help to care for the skin. You can use additional products in the bath to soothe or revitalize the skin.
- + Health applications: Whether for hydrotherapeutic applications or healing waters, the bathtub is used in a wide variety of therapies.
- + For future planning: Life circumstances often change, whether due to new partners, children, or other situations. And your bathroom requirements may change accordingly.

## JOICE Walk In<sup>+</sup>

With the JOICE, you always have a bath to hand. Without taking up any extra space.  
Your decision for more quality of life in the bathroom.

Optional: Lined carrying bag, to protect the bulkhead seal.

Optional: The combined inlet-drain and overflow set is the most compact solution for filling and emptying the water.

# You have the **JOICE.**

## Also, when cleaning.

The heavily used standing area of the high sided shower tray is particularly easy and quick to clean, due to its special, non-porous, smooth acrylic surface.

## Clean glass for the lifetime of the shower!

As an option, the JOICE shower screen can be finished with the unique ARTCLEAR glass. This specially treated glass surface, hardened by UV exposure, remains clear, is water-repellent so that limescale and dirt have virtually no grip.

TIP: Wall design with Artweger Artwall wall panels instead of tiles - the seamless, smooth surfaces are as well particularly easy to clean!
